SWAIM'S PANACEA has been for more than 30 years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by

H. Gibson, M. D., Professor of Surgery, Pa. University.
Valentine Mott, M. D., Prof. of Surgery N. Y. University
W. Rhoads, M. D., Prof. of Mid., Pa. University.

J. Chipman, Member of Royal College Surgeons, London.
Sir Thomas Pearson, Maj. General British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass

"SWAIM'S—PANACEA—PHILAD'A"

and having the name Jas. Swaim, stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine differe... lies, which have been turned for the exclusive use of the Proprietor, by Draper & Co., bank note engravers, of Philadelphia. In the centre is a portrait of the late Wm. Swaim, esq.) right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, old stand, Seventh St., below Chestnut, Philadelphia, and sold by all respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name of SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a somewhat similar name, well calculated to deceive.

KIDDER'S GAS REGULATOR.

The Regulator is small, simple and applied, when once adjusted, requires no further attention. The disagreeable effect of Gas upon the complexion is almost entirely obviated by the use of the Regulator. The light being more agreeable in color and less injurious to the eyes. The unpleasant consequences resulting from the escape of non-consumed gas are also obviated, besides a great saving is effected by its use, not only from the no use pressure necessarily used, but also when part of the lights in the room are extinguished the pressure necessarily used being on those still burning, so that a large portion of the gas escapes unburned, and is of course wasted.

The Gas Regulator is highly recommended by the press at large. For sale in sizes suitable for Manufactories, Hotels, Stores, Offices, and private dwellings. W. D. GIFFORD,

NEWPORT,

BY CRANSTON & NORMAN

144 THAMES STREET.

TUESDAY MORN'G, JUNE 19, 1855

☞ Charles Randall, Esq., editor of the "Star," Warren, R. I., has sold his paper to Albert R. Cooke, Esq., who on the 4th of July will commence the publication of a semi weekly paper, called the Rhode Island Telegraph. We wish the enterprise much success

☞ Albert J. Tirrell, notorious as the murderer of Maria Bickford, has been arrested for robbing the U. S. ship Constitution at Portsmouth, N. H. It was with some difficulty that the sailors were prevented from lynching him.

☞ The adjourned term of the U. S. Circuit Court, Judge Pitman presiding, will commence its session in this city to-morrow morning.

☞ Land Warrants are selling to speculators, in Washington, at $1, 10.

CASTLE GARDEN AS AN EMIGRANT DEPOT.—The New York Commissioners of Emigration have appropriated $2000 to defray the expense of fitting up Castle Garden as an emigrant landing depot; and about $1000 has already been expended in constructing a high wooden fence around the entire garden. Other improvements are in progress, and it is expected that emigrants will be landed there in the early part of next week. From the rules and regulations adopted by the Commissioners for the government of the establishment it appears that "no person shall be admitted within the enclosure except the officers, employees, and emigrant passengers, unless by special permission of the officers in charge at the time. No licensed *emigrant runner* shall be permitted to enter the premises under any pretex whatever." This last regulation is an excellent one.

THE TELEGRAPH AS AN IMPLEMENT OF WAR.—A letter from the camp before Sebastopol says: The telegraph is now in full play between the right attack, the left attack, and Lord Raglan's quarters. From the latter place there is also a line to Sir Colid Campbell's, at Radikoi. Our scattered camp is thus, as it were, concentrated and kept in close communication. Lord Raglan can learn in a moment what is going on in front of our batteries when firing is heard, and he can communicate with the trenches by means of orderlies from the staff [illegible] Division in a

A SPLENDID ENTERPRISE. A new dodge has been proposed by several enterprising persons in New York, which it is supposed will beat Barnum's Baby Show all hollow. The plan is to collect a couple of specimens (one of each sex) of the various tribes and nations on the habitable globe, to be exhibited in their native costumes, and thus to satisfy the curiosity of those who believe that "the proper study of mankind is man." We are informed that a large fund has been raised for the accomplishment of the purpose, and that measures will soon be adopted to carry it into effect.

The New York Tribune says the scheme is evidently suited beyond all others to astonish the natives. Such an extensive human menagerie cannot fail to knock the wild beasts on the head.

Mrs. Ann Jackson, of Kentucky, died on Saturday last, at the extraordinary age of of 108 years. She was the mother of children, the oldest of whom is in his 89th year. —*Dayton Empire.*

☞ The tide of emigration still continues to flow from the north of Scotland to Canada. One vessel left the city of Aberdeen for Quebec with 380 emigrants. The total number from that quarter during the last two months amounts to about 6000 persons.

NEWSPAPER POETRY.—Some one says: "Newspaper poetry is a peculiar feature in American literature. Some of the noblest jewels of which we can boast have first glittered among the leaden leaves of the daily or weekly press. Indeed, we have poets, and true poets, who have communed with the world in no other way."

—W. T. Thrasher, of Rhode Island, is appointed commercial agent of the United States at the island of St. Christopher, West Indies.

EXCELLENT ADVICE.—An Eastern paper gives the following wholesome counsel to the New Hampshire Legislature: "Let common sense mark all your deliberations and doings: Don't visit the nunneries, and beware of Mrs. Patterson."

☞ A cask from Boston marked "telegraphic glasses" was opened at Portland last week and found to contain forty gallons of liquor intended for eye-openers.

NEW UBLICATIONS.

THE LIFE OF SIR WILLIAM PEPPERRELL BART., the only native of New England who was created a Baronet during our connection with the mother country.—By Usher Parsons, Boston: Little, Brown, & Co. 1855.

Dr. Parsons has furnished an interesting and valuable work at least to all who are int rested in historical matters. Sir William Pepperrell was born on the 27th of June, 1696, at Kittery Point. He was a man of marked character, and held many offices of distinction. In 1744 a new scene opened in the life of Sir William. England had been some years involved in a war with Spain, and had gained important victories in which the blood of New England had been freely shed.

France declared war March 15, 1744, and England in two weeks after. The garrison at Louisburg took advantage of the prior declaration, and attacked Nova Scotia. Louisburg is situated at the southeastern extremity of the Island of Cape Breton, at the entrance into the Gulf of St. Lawrence, the opposite side of the entrance being Newfoundland, thirty leagues distant. It was as a reward for distinguished services rendered at the siege and reduction of Louisbury that Sir William was created a Baronet. Dr. Parsons has bestowed great labor upon the work, and the result is a valuable accession to the historical literature of the country.

STAR PAPERS; or, Experiences of Art and Nature. By Henry Ward Beecher.—New York: J. C. Derby. 1855.

The articles in this volume have been previously published in the columns of the "Independent," a newspaper which the author is one of the editors of; it is composed of letters written while in Europe and while visiting some of the rural districts of this country. The articles refer only to art and to rural affairs; it is the intention of the author to issue another volume, containing his controversial articles.

Mr. Beecher is one of the marked men of the age; he possesses brilliant genius and versatile talent. There is an originality in his style and an eccentricity in his character which are entirely *sui generis*; however much some may differ with him in many of his opinions, yet all must like to hear him speak and read his writings. We think that the volume will have a large sale. It is issued in excellent style.

THE CONSCRIPT; a tale of the Empire.—From the French of Alexander Dumas. New York. Stringer & Townsend. 1855. *Dieu et Diable*, the last work published by A. Dumas.

The author called the book *Dieu et Diable: Conscience Pinnacent*," which the translator has rendered, "Conscience the Conscript," etc. to avoid trenching too familiarly on things our Protestant prejudices teach us to avoid, and because it was thought impossible to find in English a term equivalent to the French *innocent*.

Since the appearance of PICCIOLA this is one of the most chaste and at the same time most interesting stories which have been printed in the French language. It is essentially a book for the fire-side circle, and as such is confidently recommended to the public attention.

For sale by C. E. Hammett, Jr., and A. J. Ward.

We have received from Messrs. De Witt & Davenport, the publishers, the Controversy between Senator Brooks and Archbishop Hughes. This is the only complete edition; it contains portraits of both gentlemen. For sale at the bookstores.

What will they say in England; a song of the Crimea, composed by J. W. Hobbs.

Rosita Polka, composed for the Piano, by Isidora Ascher.

"BENEFIT OF THE CLERGY."—Rev. W W. Dakins having been seized for his wine bill, the English Court decided that he being a royal chaplain secured him from arrest.

THE JUDGES BIG SHIRT. The story goes, that Judge A——, then on a visit to Raleigh, North Carolina, was notorious for leaving home without the necessary precautions of carrying with him a second shirt. While here, he was invited to attend a gay and fashionable party to be given the following evening, at the residence Judge B——. The visiting judge was terribly perplexed about a clean shirt for the occasion, and while revolving in his mind how he should possess himself of the desired article, (in those days ready made shirts were not as at present, articles of merchandise,) when he was called on at his room by Mr. C——, another limb of the law, but not a judge. After passing the usual compliments, Judge A—— remarked:

'See here C——, I have just been invited to attend a party to-morrow night, and I havn't a clean shirt for the occasion,'—hoping no doubt that his friend would proffer the loan of one of his. But being a bit of a wag, and relishing a good joke amazingly, he concluded to have a little fun, and at the same time teach his judicial friend a lesson concerning his negligent custom.

'Oh!' said he, there's no difficulty about that. I can have you one made.'

'But do you think it can be finished in time?' said Judge A——.

'No doubt about it, I have a shirt maker who is perfectly prompt and reliable, and can vouch for its being ready."

'All right then, if you'll be sure and attend to it.'

'You may depend on it,' said the Judge's friend. 'It shall be here at half past six to-morrow evening.'

C——, in going home that night, called at the lady's and ordered her to go to S—'s store and get nine yards of bleached domestic muslin, and make a shirt of it for Judge A——, and deliver it at his room on the following evening, and charging her particularly not to deliver it sooner or later than half past six.

'But Mr. C——,' expostulated the woman, you mean three shirts don't you, out of nine yards!'

'Do as I tell you madame. Don't you suppose I know what sized shirt is required by my friend?'

Early next morning the cloth was procured and the shirt commenced. About six o'clock in the evening, C——, all attired and ready for the party, called on the Judge, when he was saluted on his entrance with—

'See here, that shirt has not been sent yet.'

'Oh,' said C——, pulling out his watch, 'its not yet time, I told her to have it here at six.

Presently a timid knock was heard at the door, and Judge A—— jumped up to open it, when a little [illegible] and Mr. C—— told mother to make.' And forthwith the Judge prepared for donning the much coveted garment, remarking that it was a 'smart woman that made that shirt.'

'Oh yes, responded C——, I knew she wouldn't disappoint you.'

By this time the judge had commenced pulling it over him. He pulled, and pulled, as yard after yard passed, still his head was enveloped in the shirt. He complained of the size, but his friend told him he had got it twisted, and he must hurry as 'twas time they were at the party. After a hard struggle he got it on, and found himself ensconded in a shirt nine yards long and four broad, covering the whole floor with its drapery!

'In God's name,' said the judge, in astonishment, 'what is this the woman has sent me?' looking with astonishment upon the many folds around and beneath him.—'What is it, I say?'

It was with much difficulty that C—— restrained his laughter, but approaching his confounded friend, and pulling the huge collar down as that he could see his face, he gazed with apparent wonder, and observed:

'What a silly, stupid woman! I told her to get enough to make three shirts; instead of making three she has put the whole nine yards into one shirt! But we must hurry up and make the best of a bad bargain, for it is high time we were at the party this minute. You can push it down in your trowsers and nobody will be wiser.'

So at it the judge went, his friend assisting him, as yard after yard was piled away in his unmentionables, (they didn't wear tights in those days,) and thus he went to Judge B——'s party, it not the finest dressed, at least the largest shirted gentleman in the crowd.

C—— promised never to blow on his friend, and kept his word, until he learned that the judge was compelled to tell it on himself, for unfortunately he carried the big shirt home and Mrs. Judge A—— wanted to know what tremendous big shirt that was in his trunk? He had to cut with it; and it being told by the Judge himself, Mr. C—— felt at liberty to tell it also which he does sometime to the infinite merriment of all who hear him.—*Cleveland Dispatch.*

A MOCK DUEL between a South Carolinian and a Connecticut man took place near New York on Monday. The object was to frighten the Southern fire eater, and was perfectly successful, as he fled from the ground on the appearance of a sham police, and has not since been heard of.

☞ There has been an extraordinary large yield of potatoes in Bermuda, and heavy shipments have been made to the United States.

"There is no country in the world," says a cotemporary, "where the people are so addicted to the medicine eating propensity as the United States. It has grown to be a perfect mania—a disease of itself. The fact is, Nature never designed the human body to be such a receptacle of medicine.—If men would but study the law of nature diet properly instead of excessively, be regular in their doses, use common sense and and cold water freely, and the doctor as little as possible, they would live longer, suffer less, and pay little for the privilege."

Some Western editors use dainty phraseology in describing the moral eccentricities of their people. Two boys in Kenton county fell into a dispute about some trifle, when one shot the other dead with a pistol. The local paper describes the bloody deed as an "unpleasant occurrence."

☞ In view of coming emergencies, it is proposed to change the phrase, "Will you take a smile?" to the legal one, "Will you take an original package?"

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DEBILITATED and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and has united the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all others means have failed.

GENERAL DEBILITY. ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases.

Asthma	Debility	Liver Complaints
Bowel Complaints	Fever and Ague	Lowness of spirits
Coughs	Female Complaints	Piles
Colds	Headaches	Rising and Gravel
Chest Diseases	Indigestion	Secondary Symptoms
Costiveness	Influenza	Venereal Affections

Copies of claims of any patent furnished by remitting *one* dollar. Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of Patents. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. SOAP! SOAP!!

THE subscriber is now prepared to furnish the highly celebrated American Cream, American Laundry, American Manufacturers' Soap, and Cream Soap preparation. These soaps are presented to the public with the fullest confidence in their superiority and utility. A fair trial according to the directions given below cannot fail to be entirely satisfactory; and no argument more conclusive than pages of certificates and recommendations. A fair trial is all I ask. These soaps do the work of the Laundry in the best manner in cold water, either hard or soft, or salt, dispensing entirely with boiling, pounding, washing machines, &c., without injury to the most delicate fabric. In cold weather, health may render it advisable to take the chill off the water.

The tendency of these soaps is to soften the clothes and loosen the hold of the dirt, without injury.

DIRECTIONS FOR USE.—White Clothes—Rub the soap freely on all soiled spots, make a strong suds in water, sufficient to cover, soak a few hours, or all night if convenient, when with a common hand rubbing and thorough rinsing, they will be perfectly clean and beautifully bleached.

Calicoes and other colored articles, wash without soaking and rinse.

Woollens—Wash in warm suds (to prevent shrinking) and rinse.

Merinoes, Silk Velvets, Silks, Ribbons, &c. Wash in strong suds and rinse.

To take Lamp Oil, Wheel Grease, Grease Spots, &c. out of Carpets, Table Covers, and Clothing, rub the soap on freely, soak some time in strong suds, rub out and rinse. Ink spots and stains, use full strength, soak, and wash in hot water.

Gilding and Mahogany.—Wash in weak suds, rub with silk cloth and rinse. Paint, wash in strong suds.

For all other purposes, use as you do the common bar soap, and you will be compelled to admit that it surpasses all other soaps. Manufactured and for sale wholesale and retail, by

SPRATT'S LIGHTNING CONDUCTORS!

WITH branched and other joints made of pure copper and gilded with fine gold, a part of which are warranted to preserve the extremity sharp and bright. Eight times as good a conductor as a spurious imitation made of G. S. Iron, and sold last year by some dealers in Lightning Rods.

Also, Fixtures for a new and valuable improvement in applying Insulators by which the glass is kept dry, causing no leaks in roofs of buildings, and effectually preventing the Electrical Fluid from being conducted by iron screws and drives into the seen

The following recommendations have been furnished gratuitously—

Louisville, Jan. 27, 1851.

The Lightning Conductors on the plan of J. Spratt, of Cincinnati, appear to be very well devised, and in point of mechanical construction, are the best I have ever seene.

It is to be hoped that the use of these rods may become general as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

B. SILLIMAN, Jr.
Prof. of Chem. in the Univ. of Louisville.

This will certify that I have examined the Lightning Rods, Metallic Points, and Insulating Attachments, manufactured by Mr. Spratt, of Cincinnati, Ohio, and regard them as constructed in conformity to the general laws of the electric fluid; and the Gilded Copper Branched Points, as promising, from the results of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them,
